

DataLITE Wireless Adaptor Specifications

	DataLITE Wireless Adaptor AD2
Weight	25g
Enclosure Material	Acetal CoPolymer
Battery	Lithium Polymer rechargeable

- > Selectable sampling rates of 2000, 1000, 500 or 200 samples per second
- > Bandwidth from DC to 1kHz, +0dB/-3dB (reduced by sampling rates lower than 2000)
- > Wireless transmission data loss tolerant for 120mS
- > Operates from a rechargeable Li-Ion Polymer Battery with integrated charging control
- > Fully charged battery life in excess of:
 - 12 hours for the Dynamometer (G200)
 - 15 hours for the Pinchmeter (P200)
 - 9 hours for the ForcePlate (FP3/FP4)
 - 9 hours for the MyoMeter (M550)
